

THE VISION OF THE SMALL FIRES

...."I declared the former things long ago and they went forth from My mouth, and I proclaimed them. Suddenly I acted, and they came to pass".... Isaiah 48:3 NASB

The time and season that we are about to enter into will be a time when many "suddenlies" [*just like a flash of lightning*] will come forth from the spiritual realm into the natural. The "thunder" aspect of the "thunderbolt" is the full release of apostolic power and authority [*the ascension life*] that is about to come forth in the Church through the release of the "last wave" of holy apostles and prophets. Some years ago the Father blessed me with a vision concerning Canada [*this same pattern will be for many other spots across the globe*]:

VISION:

I saw many "small fires" [like dots on a map] in specific places throughout the country. These fires were increasing but they were separated from each other. Suddenly, in a flash of blinding light, these "fires" were fused together supernaturally into a great fiery inferno and the Glory of God was poured forth upon the entire nation - from sea to sea.

The "small fires" were representative of small pockets of those who were truly seeking God. The small fires being "fused together supernaturally" is representative of the fullness of time when the Holy Spirit moves powerfully to bring together [*both in the spirit and locationally*] those who are walking in true unity [*faith*] and one accord.

The lasting impression that I gained from this vision was that there will be an exponential increase in the midst of the remnant Church as these things unfold that will literally turn things upside down! I firmly believe that we are entering into a very unique window of time - not only in the history of the nations but also the history of the Church. We are about to see many "impossible dreams and visions" enter into physical manifestation, and even the most difficult obstacles [*strongholds*] will now be smashed beyond recognition as the Glorious Church begins to take legs - and brings forth "divine restoration" to a degree this earth has never seen.

I find, in these days, that it is simply a matter of getting ready and staying ready to not only be in the proper position but also to receive the fullness of the Father's superabundant provision - and use it well. One thing for certain, there are some glorious times ahead for those who have been faithful and obedient to the Will of the Father!
